

China's life insurance market is booming. As incomes rise and the country's middle class grows, people are looking for ways to protect their families' wealth. Over the past 10 years, per-capita spending on life insurance has risen more than fivefold, from US\$44 a year to US\$225. While the growth is impressive, China has a long way to go before catching up to the developed world, where the average per-person premium is US\$1,900 a year.

AIA Group, a multinational insurance company based in Hong Kong, has been successful in China, even with regulations that restricted its operations to just three cities and two provinces. Despite its limited market, its value of new business grew from US\$68 million in 2010 to US\$828 million in 2017. Its future growth may be even more robust: in November, China announced it will allow foreign insurers to operate throughout the country within five years as part of a liberalization of financial regulations. In preparation for a nationwide expansion, AIA has struck distribution agreements with large banks and other companies. It recently announced a deal to sell life insurance on WeDoctor, a Tencent-backed health care platform with over 110 million registered users.

BENCHMARK PERFORMANCE BY SECTOR – NOVEMBER

- Positive returns in Health Care were buoyed by the shares of pharmaceutical manufacturers, which benefited from investors' preference for more defensive stocks.

BENCHMARK PERFORMANCE BY GEOGRAPHY – NOVEMBER

- China's performance was boosted in November by strong sales on the country's busiest shopping day of the year. "Singles' Day"—a celebration of unmarried life—is bigger than Black Friday and Cyber Monday, combined.

PERFORMANCE ATTRIBUTION BY SECTOR – NOVEMBER

- In Health Care, Japanese clinical testing equipment maker **Sysmex** reported weak sales of blood analyzers. Management also lowered estimates for revenue growth worldwide.

PERFORMANCE ATTRIBUTION BY GEOGRAPHY – NOVEMBER

- In Emerging Markets, our relative performance was hurt in China by our lack of exposure to gaming company Tencent and e-commerce company Alibaba. The online giants were among the strongest stocks in the month, rebounding from October declines.
- Our positive stock selection in Pacific ex-Japan was due primarily to AIA.
