■ Up/Down Capture (Trailing Five Years, Annualized): 96/81

| | HL Intl Small Companies | MSCI ACWI ex-US Small Cap | | HL Intl Small Companies | MSCI ACWI ex-US Small Cap |
|------------------------|-------------------------|---------------------------|---------------------|-------------------------|---------------------------|
| Alpha (%) | 3.01 | — | Information Ratio | 0.64 | — |
| Beta | 0.92 | — | Sharpe Ratio | 0.42 | 0.19 |
| R-Squared | 0.88 | — | Up/Down Capture (%) | 96/81 | — |
| Standard Deviation (%) | 12.13 | 12.40 | | | |

¹Annualized Returns; ²Inception date: December 31, 2006; ³The Benchmark Index; ⁴Gross of withholding taxes. Inception date of the International Small Companies Composite: December 31, 2006. Investment statistics shown are derived from trailing five years' monthly returns. The International Small Companies Composite contains fully discretionary, fee-paying accounts investing primarily in non-US equity and equity-equivalent securities of companies with market capitalizations that fall within the range of the Composite's Benchmark Index and cash reserves. For comparison purposes, the Composite is measured against the MSCI All Country World ex-US Small Cap Total Return Index (Gross). Harding Loevner LP is an investment adviser registered with the Securities and Exchange Commission. Harding Loevner is an affiliate of Affiliated Managers Group, Inc. (NYSE: AMG), an investment holding company with stakes in a diverse group of boutique firms. Harding Loevner claims compliance with the Global Investment Performance Standards (GIPS®). Harding Loevner has been independently verified for the period November 1, 1989 through March 31, 2019. Verification assesses whether (1) the firm has complied with all composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policy and procedures are designed to calculate and present performance in compliance with GIPS standards. The International Small Companies Composite has been examined for the periods January 1, 2007 through March 31, 2019. Performance data quoted represents past performance; past performance does not guarantee future results. Returns are presented both gross and net of management fees and include the reinvestment of all income. Net returns are calculated using actual fees. The US dollar is the currency used to express performance. For complete information on the construction and historical record of International Small Companies Composite, please contact Harding Loevner at 908-218-7900 or visit www.hardingloevner.com. The firm maintains a complete list and description of composites, which is available upon request. Please read the disclosures on the last page, which are an integral part of this presentation.

Quality & Growth Investment Philosophy

As of June 30, 2019

Source: FactSet. Growth and volatility metrics are based on five-year historical data; the other ratios are based on the most recent annual data. All metrics and ratios are presented as weighted medians. Please read the disclosures on the last page, which are an integral part of this presentation.

MSCI ACW ex-US Small Cap Index Total Returns by Quality, Growth, and Value Rank

2Q19

High quality and highly valued stocks outperformed.

2019 YTD

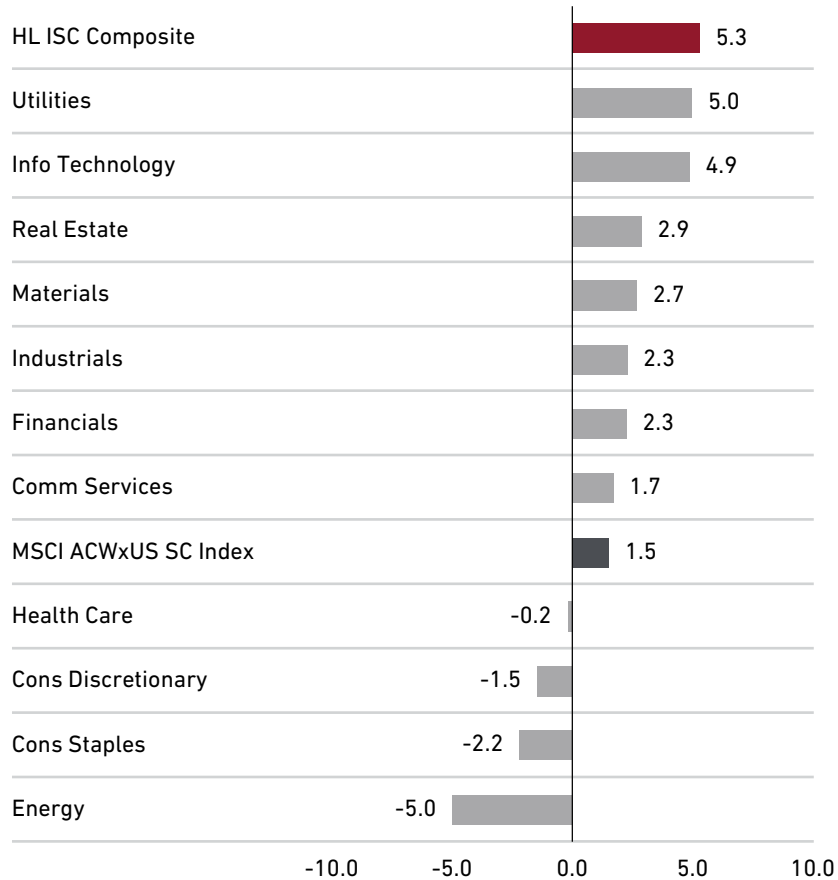

Monotonic performance across QR, GR, and VR. The higher the QR and GR and lower the VR, the stronger the performance.

Disclosures

The information provided in this Presentation should not be considered a recommendation to purchase or sell a particular security. Unless otherwise stated, non-performance based criteria have been used to select the securities listed. The portfolio is actively managed therefore securities shown may not be current. It should not be assumed that investment in the securities identified has been or will be profitable. To request a complete list of portfolio holdings for the past year contact Harding Loevner. A complete list of holdings for the International Small Companies Equity Model at June 30, 2019 is available on request.

Investing in stocks entails the risks of market volatility. The value of all types of stocks may increase or decrease over varying time periods. To the extent the investments depicted herein represent international securities, you should be aware that there may be additional risks associated with international investing, including foreign economic, political, monetary and/or legal factors, changing currency exchange rates, foreign taxes, and differences in financial and accounting standards.

Quality & Growth Characteristics, Investment Statistics, Benchmark Returns, Performance Attribution, Portfolio Exposures and Portfolio Transactions are shown as supplemental information only and complement the fully compliant International Small Companies Composite GIPS Presentation, which is available on request.

Alpha: a measure of risk-adjusted return. *Beta*: a measure of the portfolio's sensitivity to the market. *R-Squared*: a measure of how well a portfolio tracks the market. *Standard Deviation*: the statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. *Information Ratio*: a measure of risk-adjusted return calculated by dividing the portfolio active return (i.e., portfolio returns minus benchmark return) by the standard deviation of the active return. *Sharpe Ratio*: the return over the risk free rate per unit of risk. *Up/Down Capture*: a measure of the manager's performance in up/down markets relative to the market itself. *Profit Margin*: relationship of gross profits to net sales. *Return on Assets*: net income for past 12 months divided by total assets. *Return on Equity*: the net income divided by total common equity outstanding, expressed as a percent. *Debt/Equity Ratio*: total long-term debt divided by total shareholder's equity. *Sales Per Share*: the total revenue earned per share over a 12-month period, net of returns, allowances, and discounts. *Earnings Per Share*: portion of a company's profit allocated to each outstanding share of common stock. *Cash Flow*: a measure of the cash generating capability of a company calculated by adding non-cash charges (e.g. depreciation) and interest expense to pretax income. *Turnover*: calculated by dividing the lesser of Purchases or Sales by Average Capital.

The MSCI All Country World ex-US Small Cap Index is a free-float market capitalization index that is designed to measure small cap developed and emerging market equity performance. The Index consists of 46 developed and emerging market countries, and is comprised of companies that fall within a market capitalization range of USD 87-12,489 million (as of March 31, 2019). You cannot invest directly in this Index.

All performance and data shown are in US dollar terms, unless otherwise noted.

Harding Loevner's Quality, Growth, and Value rankings are proprietary measures determined using objective data. Quality rankings are based on the stability, trend, and level of profitability, as well as balance sheet strength. Growth rankings are based on historical growth of earnings, sales, and assets, as well as expected changes in earnings and profitability. Value rankings are based on several valuation measures, including price ratios.

The Composite and Attribution returns may show discrepancies due to the different data sources for these returns. Composite performance is preliminary and obtained from Harding Loevner's accounting system and Attribution returns are obtained from the FactSet portfolio analysis system. Please note returns from FactSet are not audited for GIPS compliance and are for reference only.
